

# MANOJ BODDEPALLI

+917989683953 | manojboddepalli2006@gmail.com | Github | LinkedIn

## PROFESSIONAL SUMMARY:

---

Motivated ECE student with strong skills in Python, C, SQL, IoT systems, and web development. Experienced in automation, ML based solutions, and project driven learning. Currently building expertise in full-stack development, AI/ML, and embedded software systems to develop scalable, industry-ready applications.

## EDUCATION:

---

Godavari Institute of Engineering and Technology - B.Tech - ECE

GPA 7.21

Sri Chaitanya Junior College- MPC

GPA - 7.74

MPL High School - SSC

GPA - 9.95

Rajahmundry, AP

2023 – Present

Vishakapatnam, AP

2021 – 2023

Amadalavalasa, AP

2020 – 2021

## SKILLS:

---

- Programming: Python (Intermediate), C Programming, Java (Basics)
- Web: HTML, CSS, JavaScript (Basics), Spring Boot (Basics), SQL (Basics)
- Tools: Git & GitHub, VS Code, Cursor AI
- Concepts: UI/UX Understanding, Cloud Basics (AWS), Problem Solving, Communication

## PROJECTS:

---

### *Missing Child Rescue AI*

- Developed an AI-powered system to identify missing children using face recognition and intelligent matching technology.
- Built a centralized person database with search dashboard functionality for efficient identification and tracking.
- Implemented automated alert notification features using Python, AI, and computer vision technologies.

### *Smart Home Automation Using IoT*

- Developed an IoT-based smart home automation system to remotely monitor and control home appliances through a web/mobile interface.
- Integrated sensors, microcontrollers, and wireless communication for real-time device control and status monitoring.
- Implemented backend automation logic to ensure reliable system performance and seamless device management.

### *Aunty's Kitchen – Restaurant Website*

- Designed and developed a responsive restaurant website for a real food business to showcase menu items and business information.
- Created an interactive and user-friendly interface optimized for both desktop and mobile devices.
- Deployed the website online and focused on performance optimization and smooth navigation experience.

### *AI-Powered Fake Certificate Detection*

- Developed an intelligent system to detect forged or manipulated certificates using OCR and machine learning techniques.
- Built a complete workflow for image upload, text extraction, and authenticity verification with result visualization.

## CERTIFICATIONS:

---

- AI Foundations Certification – Oracle
- Embedded Systems Basics – NIELIT
- Laser Hacks 2K25 Participation
- Generative AI Mastermind Networking
- Basics – Cisco
